

Edline

Edline is an on-line grading program for teachers to manage grades and to increase communication with students and parents. PCS will issue access codes for each family and student. Families that are in multiple households may request extra codes as needed. Teachers will work to update student grades every Wednesday by 4:00 pm. Please regularly check into your Edline account. This tool is one of the ways you can stay informed of your child's progress.

Important information concerning Edline:

1. All families that attended PCS last school year may use the same access code as last year, if you have lost or forgotten your access code please see #5.
2. The first posting of grades will begin the first week of September, 2016.
3. Should you have a question regarding a posted grade please call or e-mail the teacher of the class in question.
4. Should you have a question concerning access please e-mail Jonathan Lewter at: jonathan.lewter@portlandchristian.org.
5. If you are a new family and need an access code, you have misplaced your access code, or need additional codes please email Jonathan Lewter at: jonathan.lewter@portlandchristian.org.
